CS 378 - Fall 2014 - Homework 1

Due date: **9/4/14 by 6pm**, late work is not accepted
Submit: A zip file of your entire project folder.
                         Name your zip file: **<last-name><first-name>-hw1.zip**
                              Example: for Joe Smith   SmithJoe-hw1.zip

Description: Create and run a Hello World iOS application

Steps:
1. If you are going to use your own computer for this course, Install Xcode 5 (latest version is 5.1.1). See link below.
2. Start Xcode.
3. Select File -> New -> Project.
4. Select iOS -> Application -> Single View Application and click Next.
5. In the Product Name field enter "HelloWorld".
6. In the Organization Name field enter "CS378HW1".
7. In the Company Identifier field enter "com.cs378".
8. In the Class Prefix field enter "HelloWorld".
9. Change the Devices selection to iPhone.
10. Click Next.
11. Select the folder you want to store the project in.
12. Click Create.
13. Open the storyboard.
14. Add a label to the view controller.
15. Center the label horizontally and vertically.
16. Change the background color to one of your choosing.
17. Modify the text to show "Hello <your-first-name>".
18. Click the Build and Run button (looks like a Play button in the top left) to verify your name is showing in the center of the phone and the background color is what you selected.
